Saviour Chemguard Plus

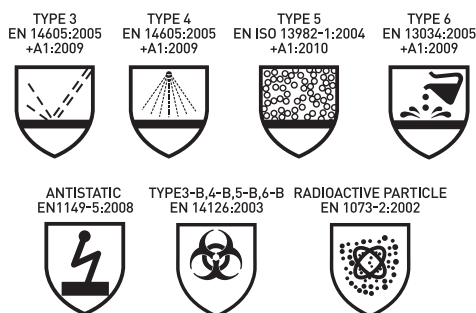

If you work with Solids or Fluids in any manufacturing facility, you need to protect all your body parts from potential hazards. Some Fluids, such as chemicals (toxic or non-toxic), aerosol particulates, pathogens etc., can pose serious risks to your health and safety. That's why you need 'Saviour' Chemguard, the high-performance and highly economical chemical protection suit that meets the European Standard Type3 and Type 4 standards. With 'Saviour' Chemguard, you can be confident that you are protected against strong acids and alkalis, inorganic and organic chemicals, and biological media.

TECHNICAL SPECIFICATIONS

Material	Organic combination of high-performance polyethylene film and polypropylene polymer.
Colour	Bright yellow
Chemical Compatibility	Suitable for protection against strong acids and alkalis, chemicals inorganic and organic and biological media and environmental treatment.

CERTIFICATION

KEY HIGHLIGHTS

1. The fabric combines high-performance polyethylene film and polypropylene polymer for effective protection against a variety of liquid chemicals.
2. Suitable for protection against strong acids, strong alkalis, chemicals, and environmental treatment.
3. Bright yellow colour enhances visibility, promoting safety for the wearer.
4. Internally sewn and externally heat-sealed for increased seam strength, providing greater protection against liquids, particulates, and many chemicals.
5. Double-layer zipper design enhances protective performance.

APPLICATIONS

1. Protection of Personnel in Research Labs and environment infested with Bacteria, virus etc.
2. Nuclear industry radioactive particles and dust prevention.
3. Protection of Personnel in Chemical, Biochemical, Petrochemicals & Fertilizers Industries etc.
